PAYMENT REQUEST

Jnanottam

INVOICE

Invoice **01 / 2026–27**
Dated **16 October 2026**
Against the quotation of
16 September 2026

BILLED TO

Dr. R. Dhanush

Malnad Spices, Horanadu — Malnad produce, trading since 1999

FOR

malnadproducts.in

One-time build and launch of the online shop, payment system and supporting systems

01

Amount due

Revised against the quotation you accepted: the WhatsApp community is withdrawn, and two weeks of search engine optimisation is added. Section 02 sets out every change and what it does to the total.

ONE-TIME WEBSITE AND SYSTEMS BUILD

#	DESCRIPTION OF SERVICE	AMOUNT (₹)
1	**Store design and development** — Shopify setup, custom storefront design, mobile-first build, domain and email configuration, FSSAI and labelling fields, GST and HSN configuration, legal pages, end-to-end testing and go-live	22,500
2	**Product catalogue setup** — 57 products across 63 pack sizes, images, descriptions, pricing, collections, search	7,000
3	**Razorpay payment integration** — account and KYC support, website approval, gateway integration, UPI / cards / net banking / wallets, Magic Checkout, live testing	6,000
4	**Order management and dispatch workflow** — packing slips, dispatch marking, tracking-number entry, returns and refund process	2,500

#	DESCRIPTION OF SERVICE	AMOUNT (₹)
5	**Search engine optimisation, two weeks** — page titles and meta descriptions across all 57 products, 9 collections and both pages; local search terms; search setup and monitoring over a fortnight ADDED	6,000
	Sub-total	**44,000**
6	**Owner dashboard** — one screen showing orders, money received, what is waiting to be packed, best sellers and the sales split INCLUDED AT NO CHARGE	8,000
	Less: included in this proposal at no charge	- 8,000
	Total payable	**44,000**

Rupees Forty-Four Thousand Only. A flat fee, with **no tax added on top** and nothing further to pay for the build.

> **This total is not the ₹38,000 on the quotation, and section 02 explains why in full.** In short: the WhatsApp community has been withdrawn and is not charged for, the work it covered has gone into the build, and two weeks of search engine optimisation has been added at **₹6,000**. The net difference is **₹6,000** more than quoted.

02

What changed against the quotation

Three changes, set out in full so nothing has to be taken on trust. Two of them reduce what you are charged; one adds to it.

QUOTED 16 SEPTEMBER AGAINST BILLED TODAY

LINE	QUOTED (₹)	BILLED (₹)	CHANGE
Store design and development	15,000	22,500	+ 7,500
Product catalogue setup	7,000	7,000	—
Razorpay payment integration	6,000	6,000	—
WhatsApp Business and community setup	6,000	—	- 6,000

LINE	QUOTED (₹)	BILLED (₹)	CHANGE
Order management and dispatch workflow	2,500	2,500	—
Compliance, launch and training	1,500	—	- 1,500
Search engine optimisation, two weeks	—	6,000	+ 6,000
Total	**38,000**	**44,000**	**+ 6,000**

TAKEN ONE AT A TIME

- ☐ **The WhatsApp community is withdrawn, and you are not charged for it.** It was quoted at ₹6,000 and it has not been built. Rather than bill it and promise it, it comes off.
- ☐ **Compliance, launch and training is no longer a separate line.** That work was done — the FSSAI and labelling fields, the GST and HSN configuration on every product, the legal pages, the end-to-end testing and the go-live. It now sits inside the build line above rather than standing on its own, which is why that line reads ₹22,500 instead of ₹15,000.
- ☐ **Two weeks of search engine optimisation is added at ₹6,000.** This is the one charge above the quoted ₹38,000, and it was not in the original scope. It covers page titles and meta descriptions written for all 57 products, all 9 collections and both pages — using the local names customers actually search for, nellikai and sikakai and marati moggu rather than their English equivalents — plus the search setup and monitoring over the fortnight that follows.

> **The net effect is ₹6,000 above the quotation and nothing else.** No line has gone up without something coming off, and the two items removed are the only parts of the quoted scope you are no longer getting.

03

What has been delivered

- ✓ **The shop is live at malnadproducts.in** — your own domain, with SSL, in your name.
- ✓ **57 products across 63 pack sizes** , in nine sections, each with its own price, its own photograph and its own printed declarations read off the pack.

- ✓ **Delivery priced by weight and distance** — four zones, seven weight bands, twenty-eight rates, built twice over so a product added later is also covered.
- ✓ **Razorpay live and taking payments**, with the website registration approved and Magic Checkout running, so Shopify's own 2% does not attach to each order.
- ✓ **All six store policies**, the About and Contact pages, the navigation and the footer.
- ✓ **GST and HSN on every product**, and a script that turns a monthly order export into the HSN-wise sheet your accountant files from.
- ✓ **Search listings written for all 68 pages** — every product, every section and both pages, titled and described for how a customer actually searches.
- ✓ **An owner's manual**, and a plain-English guide to how the money reaches your bank.
- ✓ **QR codes for the shop** — static, print-ready, with no third party who can switch them off.

---

04 Still to come, at no further cost

- ☐ **The owner dashboard** — deliberately left until after launch, so it is built around what you actually want to see once you have run the shop for a few weeks. It is in the price at no charge either way.
- ☐ **Thirty days of free defect support**, running from launch. Anything built here that does not work is fixed at no cost.

> **On payment of this invoice, everything is yours outright.** Every account, the domain, the store, the designs and the content. Nothing is held back and there is no hold over your access.

---

05 How to pay

NEFT, IMPS, UPI or bank transfer. Account details are sent to you separately, not printed on this invoice.

> **What this invoice does not cover.** Shopify's subscription, Razorpay's transaction fees and the domain renewal are **not** billed here and are not collected by Jnanottam. You pay those companies directly, from your own account, at their published rates, and you keep the GST input credit on all of them. The quotation sets out what each of them charges.
